Assessor Comments	These are an even line of Reiland Angus blood heifers weighing an average of 261kg (230-kg - 310kg) full at assessment. Normally retained to join the breeding herd, but selling earlier to the season. They are in strong store condition and will show good compensatory weight gain on improved feed conditions. The temperament of these heifers is a feature - all being easy to handle at assessment, being handled regularly, and familiar with being around people. They would be ideal to join an existing Spring calving herd or as trade heifers. Please note: vendor also has 22 Angus steers on the same sale.
