	Odd steer was a little unsettled on the scales but settled once back in the mob. Being fed hay has these steers comfortable with human interaction. Typical of weaner cattle to handle.		
Handled With	Bikes , Dogs , Horses , On foot , Vehicles		
Notable Traits	Traits 4 Head Non detrimental eye blemish. 1 Head Small pink eye dot in both eyes - not affecting vision.		
Assessor Comments	Vendor bred poll Hereford steer weaners with years of Wirruna Poll Hereford genetics invested into the herd. Presenting in ideal store condition having the frame and with minimal fat cover offering immediate compensatory weight gains given quality feed. They are 100% grass fed and antibiotic free and Greenhams Never Ever accredited. These steers are typically fattened to kill weights and are only being offered for an early sale due to the tight season. Benambra Pastoral was awarded MSA's Top 100 Producer 2023 for previous progeny sold to slaughter in 2021-2023. A true testament to the performance of the genetics invested into the herd. Breeders cattle that are not always offered to the open market, presenting profitable trade options for the successful purchaser given the position of the cattle market currently. Should you require any further info please call. Please note - vendor is offering other lots in today's weaner and Eastern States sales.
