Assessor Comments	A great line of well bred spring drop Angus calves. Tops of the drop with a small tail drafted off that have been weaned for 3.5 months. \$ Angus Bulls used with 40 cows Team Te Mania cows that were bought in. These calves are Organic certified EU accredited and PCAS eligible. Calves are all fit and strong with no Warts, Ringworm or eye problems in the whole mob. Ideal spring drop weaner steer calves to grow out to feeder weights or take through to heavy Bullock weights. Would power ahead on good feed as season has been tight in the South West.
