	3 Head White on udder		
Assessor Comments	This is a part dispersal of the Beach Farming herd, providing an opportunity to purchase a B-Double line of high quality, extremely quiet, middle-aged Angus cows and calves. These cows are predominately large framed matrons, with deep bodies, that weighed an average of 638kg full at assessment, with fresh March/ April drop calves at foot. They have been carefully selected from Te Mania, Connamara and Glenruben bloodlines and the calves are by industry leading AI and naturally mated sires. Trait selection has been focused on birth weight, rapid early growth and temperament. Please note: calves are unmarked. These cows were fantastic to handle and would be a huge asset to any Autumn calving herd or as foundation females for someone wanting to get into breeding.
