	Slightly Stirry: 4 head		Slightly Stirry: 2 head					
	Good to handle, when put under pressure the odd heifer became slightly agitated							
Handled With	Bikes , Vehicles							
Assessor Comments	Omnizar Pty Ltd offer a neat line of vendor breed PTIC Angus heifers. These heifers are only being sold due to the very tough season in Central Victoria, otherwise would normally be retained in the breeding Herd. They are the tops of the drop. This herd is predominantly Langi Kal Kal and Bardwidgee blood with a focus on moderate, highly productive cattle with good fertility. These particular Heifers are not carrying any excess weight due to the season but display all the traits you want in your angus cattle. Joined over a tight 7 week period to Langi Kal Kal Bull (BWT 3.5) who has been joined to heifers in previous years with no trouble. These Heifers will be re preg tested before they are delivered so you can buy with confidence. Please note vendor has another line of PTIC cows in same sale.							
Assessor	Dean Coxon (Level 2 Accredited) Phone: 0417 304 947 Parallel Assessed By : Jack Richards
