Handled With	Good to handle, when put under pressure the odd cow became slightly agitated Bikes , Vehicles																															
Assessor Comments	Omnizar Pty Ltd offer a neat line of vendor breed PTIC Angus Cows. These Cows are only being sold due to the very tough season in Central Victoria, otherwise would normally be retained in the breeding Herd. This herd is predominantly Langi Kal and Bardwidgee blood with a focus on moderate, highly productive cattle with good fertility. These particular Cows are not carrying any excess weight due to the season but display all the traits you want in your angus cattle. Joined over a tight 7 week period to Barwidgee bulls. These cows have reared a calf every year they have been joined. These Cows will be re preg tested before delivery so you can buy with confidence. Please note vendor has a line of PTIC heifers in same sale.
