Notable Traits	Traits			
	5 Head	Odd lambs with small lite dag		
Assessor Comments	A line of 115 late drop vendor bred wether lambs, set up well to go straight into the feedlot. These lambs would normally be fattened for the Winter lamb market but low grain reserves means they are up for sale. Lambs are late drop being July / August '24 drop and started on grain in feeders for past 3-4 weeks. Ideal feeder lambs for a winter trade.
