Assessor Comments	Buyers, an opportunity to secure 45 GLENLANDS BRED DROUGHTMASTER females that have a reputation for performance, fertility and functionality. These females are bred from quality large frame Droughtmaster cows that have many generations of leading Droughtmaster genetics. They are sired by top quality bulls that were selected for structure, fertility & temperament. These heifers had a live weight range of 371kg - 429kg at assessment and will have a delivery weight of 401kg They are well grown females that have plenty of length, femininity & softness. Majority polled or polled scurred females with only 12 being horned. The Denby cattle also have a solid reputation for performance & grading on grass & grain grids. They are TEYS GRASSLANDS ACCREDITED & have had 7 in 1 booster needle and three germ blood. Vendor has another lot of heifers in same sale.
