| Vendor Comments                       | These heifers are part of our annual turnoff. We have chose to market them at this time to allow room to grow the steers to heavier wights.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                   |                                           |                                     |  |                 |  |           |     |           |     |      |     |       |     |      |     |  |  |  |

|                                       | All cattle in this lot are very well behaved good to handle through the yards. The cattle that are slightly stiry are not aggressive they are just uneasy when too much pressure is applied, once the pressure is released the cattle calm down.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                              |                                           |                                     |  |                 |  |           |     |           |     |      |     |       |     |      |     |  |  |  |
