Assessor Comments	7 vendor bred angus heifers, avg weight 316kgs full, range of 292-363kgs. Heifers display quality breeding background and are well grown in good forward condition and show quality breed attributes. Have had 2 vaccines and no recent parasite treatments. Buffalo fly irritation is noticeable with very little rub marks observed. These cattle will suit future breeder or very suitable to grow out for trade feeder type stock. No faults observed and cattle show good mobility issues. (Note 7 head of angus heifers in this sale approx. 20kms away which may suit building on numbers).
