Steers are lovely and quite and easily handled in yards. Several became slightly agitated on scales / in crush, quickly

Handled With	calming when released back to the mob. Bikes , On foot , Vehicles
Assessor Comments	19 Steers 244.5kg average,201-267kg at assessment. These steers purchased in march and have done very well on natural pastures. They are very quite and easily handled. Steers best described as angus cross, they appear to be predominately angus with several showing slight Wagyu influence. Please take note at least 3 Steers seen with slight scur, one steer observed with white on belly through to cod. Steers should go well if given the opportunity.
