Assessor Comments	Nice quality small line of heifers. Heifers represent the lighter end of the vendors drop with a small tail removed from group at assessment. They present in strong store condition and are offered for genuine sale due to end of an agistment agreement. They are bred from large frame females and are generally retained until the spring by the vendor, but current seasonal conditions have not allowed this. Vendor has been on Onslow genetics for many years and cattle are bred to perform. Heifers are all frame in light condition with plenty of compensatory weight gain to be had.
