| Steers handled well, but some did slightly stir up when put under pressure. |                         |      |                         |                                     |

| Assessor Comments      | Quality line of Angus steers. Vendors select the top end sires from Crawford, Onslow & Mundarlo studs. These steers are off vendors Tumorrana block and have recently been brought back to main block and yard weaned, these steers still present in good fresh condition. Likeable Angus steers which would suit any fattening operation. Vendors normally grow into feeder weights. Excellent opportunity to secure some well known Jeremiah bred Angus steers which are only on the market due to seasonal conditions. Any questions please call myself. Please see vendors other line of 22 steers in the same sale. Please note both lines were assessed in two different sets of yards but will be at one set for delivery if potential buyers purchase both lines. |
