Cattle were easy to handle amongst yards, some steers did become inpatient in crush. Showing signs of eagerness to return to the mob as well as 'tail flicking' and repeatedly pushing on cattle crush gate.

Assessor Comments: G Dimond & Sons offer a tremendous opportunity to secure a quality line of Angus steer weaners. This line of calves is very rarely offered outside the 'Dimond' cattle program. A renowned supplier of the 'JBS Great Southern Grass Fed Program', these Te Mania & Murdeduke Angus weaners come with our highest recommendations. In testing conditions, these steers are still recording a 1kg/day weight gain. As noted above in traits, 19 steers observed with a light/medium degree of ringworm. Steers with most active/high level of ringworm removed from assessment.
