Assessor Comments	A very good line of Angus and Angus cross Heifers Preg Tested in calf to Angus Bulls. Bulls used by previous vendor were Spry's Angus. Vendor is keeping heifers that have already calved and more advanced in calf. Would be another 25 head available that are not too heavy in calf if the purchaser wants to make up 4 decks. Fit to load guidelines will be observed. Heifers are medium to good frame with 4 smaller frames. Heifers have a very good temperament and show very good bone and type. Heifers would make a very good line of future breeders. Have also attached photos of heifers that have already calved as well.
