Handled With	These Young cows had great temperaments and flowed through the process with ease in very muddy conditions. Bikes		
Notable Traits	Traits 1 Head Full blue eye from old pink eye scaring. 3 Head Light pink eye scaring in one eye. 1 Head Medium pink Eye scaring in one eye.		
Assessor Comments	An outstanding line of very well bred EU Angus front paddock Breeders. The Baringa bloodline descends from Glenavon angus, Outside genetics are imported through an annual AI program and careful purchases from like minded studs. Baringa's breeding objective is to produce easy care, moderate, docile, fertile cattle that excel in structure, calving ease, growth, carcase and maternal traits. Baringa steers are tested annually in the NSW Beef Spectacular feedlot trial and other carcase competitions. These steers have picked up numerous carcase and MSA awards. These young PTIC cows are a good reflection of Baringa genetics and should be expected to produce excellent results. They are only being sold as there is large number of PTIC cows in that age bracket and they are surplus to requirements. Heifers were joined over a tight 8 week period & due to calve from late July onwards to Quality Baringa Angus bulls. Excellent soft easy doing females that will preform, Don't Miss !!		
Assessor	Steve Daley (Level 1 Accredited) Phone: 0499 898 561
