Assessor Comments

Herd Dispersal Very good quality line of Angus cows that are good frame in forward condition. Cows have been run in steep grass country and all have produced a weaner each yeah. Some cows will have weaners taken off at assessment.

Some of these young cows are heavy and dry due to calving last autumn then not being rejoined until the spring to change to all spring calving. Good cows to handle through yards. Joined to good quality Segenhoe, Waverley and Urban Angus Bulls. 1 cow cloudy blue eye. 1 cow with small amount of white in brush of tail. Ideal young cows to add to existing herd. Vendor has 4 other lots in same sale.
