Assessor Comments	Buyers, on offer is a neat line of 37 PTIC Millah Murrah and Hazeldean blood Angus Heifers. Heifers present in forward store condition leading into calving in approximately 5 weeks from early July for 7 weeks. Heifers display good length of body and frame to fill into good medium to large frame cows. Heifers are joined to a high-indexing LBW Kenny's Creek sire whereby the vendor meticulously selects for early growth and calving ease (please see attached photo of sire indexes). Note must be made of the calm temperament of the heifers allowing for calm and stress-free handling. Heifers are part of an annual sale and represent an excellent opportunity to enhance any breeding herd, whether for calving down or onward trade. Please take note of delivery/pickup instructions. For further information, please get in touch.
