Slightly Stirry: 2 head

Slightly Stirry: 3 head

Paddock

On the day there was plenty happening, with the yards being at full capacity, cattle being bought in fresh from the paddock, calves being drafted off their mothers for marking, as well as cows being put up the race for weighing and needling. All happening in a small timeframe before being returned to the paddock. Considering this, they handled very well in a noisy, stressful environment. Overall were quite comfortable with people in the yards with them, the very odd one became slightly stirry.

Assessor Comments

Full Herd Dispersal On offer is 38x36 Angus Heifers with Bongongo Blood CAF. Vendor is leasing out their property in the coming months which has bought on the sale of their breeding stock. Heifers present in good condition whilst having nice sappy calves on them. On the day of assessing, these females were given a 7in1 booster and the calves were all marked and given a 5in1. Calves weights were not recorded on the day but has seen in the photos they are fresh and on the do. Calves are very even. Heifers are bred by top quality Bongongo Angus bulls and are out of medium to large framed cows. There are 2 heifers that had calves die so they will be sold at half of the purchase price. This is an excellent opportunity to acquire well bred young females with all the hard work done for the purchaser. They are ready to be joined to the bull of choice and they will continue to mature into a great working group of cows.
