	Exceptionally well handled cattle! Heifers were a pleasure to work through a challenging set of yards on a lease property. The Nowlan Past team pride themselves on stockmanship and having well handled easy to deal with cattle.		
Handled With	Bikes , Dogs , Horses , On foot , Vehicles		
Assessor Comments	A very good opportunity to purchase a total of 120 very well bred PTIC Angus heifers to commence calving last week of July. Heifers are in calf to Low birth weight Bongongo stud bulls and are in healthy store condition with a lot of compensatory weight gain to be had after a very dry Autumn on the Monaro. These young females have the frame and the breeding to move forward very quickly in the right conditions creating an excellent opportunity for a quick calve and trade in a rising cattle market or a quality addition to any breeding program. Heifers were purchased out of the Central tablelands with care taken to only obtain quality. They have been treated with Vetmec pour on, 7in1 booster and Selovin LA on the 13th May. 3 heifers noted with white on belly Very quiet well handled heifers ready to go on with.
