	Cattle were good to handle throughout the assessment process, they stood calmly on the scales and showed no vices			
Handled With	On foot , Vehicles			
Notable Traits	Traits 1 Head Old pink eye scar 3 Head White near udder and 1 near flank			
Assessor Comments	Offering a quality line of station mated cows and calves.This line of breeders consists of 50% being out of a Prime Angus cow sired by Prime Angus bulls and 50% are out of Team Te Mania blood cows by Prime Angus bulls. These are a quality line of young proven breeders, medium to large frame and their calves at foot show plenty of growth for age, averaging 180kg at assessment. The cows range from 1st to 3rd calvers, and they have done an outstanding job on their calves whilst enduring a tough dry season. This is a great opportunity to purchase in some good quality genetics that have the added benefit of being station mated back to a registered Prime Angus Bull for a December/January calving.
