Slightly Stirry: 2 head

Slightly Stirry: 2 head

The Askew cattle are generally very good to handle. Weighing and assessing was no issue with cows working onto scales and through crush with minimal fuss. This mob were a pleasure to handle.

Handled With

Bikes , On foot , Vehicles

Notable Traits

Traits

1 Head Very slight blue eye, past pinkeye scar, hardly noticeable.

3 Head White udder

1 Head White udder, extend to belly and front legs

Assessor Comments

A well bred draft of Angus cows & calves offered due to deteriorating local seasonal conditions. This group of cows were originally retained as core breeders after selling down the herd last year. They are in healthy store condition and feature Rossander, Murdeduke & Ballangeich bloodlines. Cows are predominantly medium frame and better (two to three head smaller frame). The Askew herd are usually early to mid 600kgs when prime but these cows are probably a frame score less due to two very trying years during maturity. Calves at foot are mainly fresh condition (odd calf just slightly dryer in coat recently) sired by quality LKK Angus bulls. The Askew program traditionally markets quality Angus weaners to backgrounders and finishers with positive feedback from previous purchasers. These opportunities to acquire core breeding stock out of the renowned Western District area won't last forever. A chance to acquire well bred cows with calves at foot that will perform. Cows ready to join.
