Assessor Comments	Tarrone View offer a quality line of 25 Ptic Angus heifers that tick all the boxes. These heifers calve July 1st for a 6 week period. Heifers are bred from Pathfinder blood cows that have tremendous depth and width throughout and these heifers are showing all of those attributes. These heifers would normally be retained and are only offered for sale due to a tough season. With the right grazing conditions will thrive into terrific vealer mothers. These heifers handle really well and come with my highest recommendation. Intending purchasers please note heifers will be re scanned in calf prior to delivery to ensure buyer confidence.
