	Cattle were easy and low stress to handle. They look for an opening and are free flowing cattle to handle in yards. In the paddock very quiet to muster. They have been frequently fed in their paddock, you can drive through them in a vehicle while they graze.

Assessor Comments	A great opportunity to secure a line of first calving heifers to take forward, the heifers show great weight for age and will continue to grow into big females in the future. These females are doing a great job of their calves and display plenty of milk, calves are very fresh and are ready to grow on. The calves were marked at assessment and given their first dose of 7in1 and a drench of cydectin pour on to ensure no worms. A regretful sale for the vendor as seasonal conditions are forcing the sale of these outstanding units. I highly recommend anyone looking for young cows with calves and with the hard work already been done to not overlook these.
