| Assessor Comments      | A line of 8 Angus/Brangus cross unweaned heifers on offer. They have plenty of bone and confirmation to make ideal feeders or replacement future breeders. Although described as Angus/Brangus x, heifers are soft with one steer having a red tinge through it. Please see photos for on satisfaction. Buyers note, Cattle are in a tick infested area, they will be scratched and cleared by Delivery Agent on farm and back lined with Dectomax pour-on once cleared. Vendor guarantees clear on farm, Delivery point is own farm not as stated as clearing facility. Interstate buyers will still need to have a plunge dip at clearing facility at buyers expense. Vendor has other lots in same sale. |                         |         |
