Assessor Comments	Buyers, here is a 3 deck line of backgrounder heifers with very good temperament and all the hard work done. They have a live weigh range of 229kg to 279kg and will have a delivery average of 248.7kg. It is expected that these heifers will have good compensatory weight gains as at the time of assessment they had slightly slipped in weigh gain due to 2 days of wet weather 3 days prior to assessment. They are in good store condition and are ready to go forward if given the opportunity on good feed. These heifers would be ideal heifers to take through to trade or heavy feeder weights. Please note the same vender has another 3 deck line of heavier heifers in the same sale.
