Assessor Comments Buyers on offer is 120hd Angus and Angus cross steers , weighing 260 - 425 kgs to ave 325 kgs at assessment. Steers present in store to forward store condition and given the access to good quality feed and the right opportunity should do very well. Steers have been drafted to suit the domestic/export feeder orders or taken though for the grass kill bullock market. This is a great opportunity to secure a large run of angus and angus cross steers that are moving forward and should continue to do so. Steers would be ideal to take home pout onto grass/crop or take the lead straight onto feed. Please note that approx 25 steers are showing the effects of being cut late with purses still falling off though not deemed detrimental. For further information please call.
