Assessor Comments	A nice line of young Angus heifers by Glen Morgan and Borrigal sires. Heifers were purchased as calves on cows out of Northern NSW. Calves have been properly weaned and handle extremely well. Heifers are very true to type and if given the right opportunity will grow nicely into future breeders or fatten for the trade or export markets. Running on short green pastures these heifers will present in store condition and will go forward. 10 tail heifers were taken out of this mob . Also offered in this sale are 45 steers of the same description.
