	These heifers have had some handling since being weaned and were respectful in the yards. The odd heifer wanted to push forward in the race but once through the crush and draft and back in the mob was calm. When taking photographs and videos in the larger pen they stood quietly

Assessor Comments	On offer is a nice line of 61 weaned Angus Heifers. These calves are Mundarra Blood, are 8-9 months old and have been weaned for 6 weeks. Heifers are all frame and despite a challenging season are still fresh, presenting in forward store condition. The Parfett cattle are renowned performers and these lightweight heifers will do very well on a fresh pasture. A great opportunity to purchase lightweight well-bred Angus calves and benefit from immediate compensatory gains. Please note the vendor also has two lots of weaner steers offered in the same sale.
