Assessor Comments	Buyers, on offer is a very well bred line of pure Kenny's Creek blood Angus Heifers. Heifers demonstrate all the attributes of quality breeding, showing good bone, length and depth. Heifers have been weaned for 4.5 months and have since been running at high stocking rates on pasture with sheep being fed supplementary hay. Heifers are the complete drop with none retained due to the tight seasonal conditions. Given the opportunity, these heifers will perform well and are ideal to take onto heavier weights either to join, grow or fatten.
