Assessor Comments	Very good quality weaned Angus steers from one of the better herds in this district. They have the frame , conformation and bone to make Ideal feeder steers with all the attributes and breeding to perform on grain or grass. These steers present in fresh condition and have had no set backs. This herd has undergone a heavy culling regime in the last few years and that shows through in these steers. NOTE 5 have white on them and we will take them out if they do not suit the purchaser. A large tail has been taken out. There is another two lots of Heifers on offer in this sale as well as another local district lot.
