Vendor Comments	Regularly top the market at Gracemere Weaner sales. There wasn't any tick noticed on the steers at assessment but no guarantees are given.

Temperament	Yards	Crush	Paddock
	Quiet: 140 head Slightly Stirry: 6 head	Quiet: 144 head Slightly Stirry: 2 head	Temperament not assessed in Paddock

These steers are very easy to handle in all areas of the yards. Temperament has been a huge focus by the vendors and considering these have only been weaned for about 5 days they were very quiet. Buyers advised to allow steers to settle down on arrival before they show them the gate.

Handled With	Aerial (Helicopters, gyro's and planes) , Bikes , Vehicles

Assessor Comments	Buyers here are EU accredited weaner steers from the very well-respected Roper Downs herd of Charbray and Charbray cross cattle. These young steers have settled very well since they came off the cows last week and are extremely quiet. They demonstrate excellent weight for age with all the Euro traits evident for all to see. They have depth of barrel, length, stand on great bone and have muscled up well at a young age. These will tick all the boxes for a backgrounder to take to an oats crop or improved pastures and onto heavy export feeders or right through to be well muscled up bullocks off grass or crop. These are also PCAS eligible so will also suit all grassfed slaughter markets off grass. They have been pre-treated for ticks with an injectable so hopefully they will clear but no guarantees can be given. There are also an additional 2 decks of lighter steers that can be purchased to fill additional decks. Buy and try, I think you will like them.
