Vendor Comments	Regularly top the market at Gracemere Weaner sales. There wasn't any tick noticed on the heifers at assessment but no guarantees are given.

Joining Details	Not Station Mated
Any Access To Bulls or Stags?	Yes, last access to bulls/stags: 26/03/2025
Joining Access Details	These were exposed to bulls as followers on the cows up until March. Due to weight and age it would be unlikely these would have been cycling however no guarantees can be offered.
Temperament	Yards: Quiet: 58 head; Slightly Stirry: 2 head Crush: Quiet: 59 head; Slightly Stirry: 1 head Paddock: Temperament not assessed in Paddock These heifers are very easy to handle in all areas of the yards. Temperament has been a huge focus by the vendors and considering these have only been weaned for about 5 days they were very quiet. Buyers advised to allow heifers to settle down on arrival before they show them the gate.
Handled With	Aerial (Helicopters, gyro's and planes) , Bikes , Vehicles

Assessor Comments	Buyers here are EU accredited weaner heifers from the very well-respected Roper Downs herd of Charbray and Charbray cross cattle. These young heifers have settled very well since they came off the cows last week and are extremely quiet. These soft heifers show plenty of shape and will fill many possible buyer requirements. These will tick all the boxes for a backgrounder to take to an oats crop or improved pastures and then onto domestic feeders, and being PCAS eligible will also suit all grassfed slaughter markets off grass. Above all they would be ideal to take through to heavier weights with the possibility to join up to your bulls of choice. They have been pre-treated for ticks with an injectable so hopefully they will clear but no guarantees can be given. These were drafted on colour and these are the creamy types. There is an additional light 2 decks of the red heifers that can be purchased to fill decks.
