	Quiet: 103 head	Quiet: 103 head	Temperament not assessed in Paddock

Credit to the vendors, as these steers were excellent to handle through the yard and in the crush. Steers have a quiet temperament which could be attributed to being well educated at weaning and when cattle are purchased. These cattle are well handled as they are part of a rotational grazing program.

Notable Traits

	Traits
2 Head	Blue eye
2 Head	small white mark under belly
1 Head	wart

Assessor Comments: Backgrounders, very good quality line of 103 Angus steers. Grassfed, antibiotic free, HGP free. Steers present in store to forward store condition ranging from 310kgs - 482kgs to average 376kgs curfew. Extremely well handled, with good temperament, they have been rotation grazed through fresh paddocks. A large percentage of these steers were purchased out of northern NSW as part of a trade job. They have plenty of frame, bone & depth to keep on doing. Ideal steers for a oats crop, to be taken through to heavier export feeders or kill job. These steers will not disappoint. Please note vendor has another lot of steers in same sale.
