| Assessor Comments                                           | A quality run of light weight weaners heifers with plenty of potential. These heifers were bred on a very light forest block and are renowned to perform where ever they go. They are all sired by quality Charolais Bulls from Kandanga Valley and Angus Bulls from Tex Angus. They are bred out of a line of Droughtmaster X and Angus X cows. The heifers have great temperaments and worked well through the yards. A line of quality heifers that will suit most trade feeder jobs later on. |                                     |       |                 |                                                             |                                           |                                     |           |     |      |     |       |     |      |     |  |  |
