Assessor Comments	An excellent line of yard weaned steers in fresh forward store condition. Suit to take to a range of premium grain or grass markets. Have never been fed grain or treated with antibiotics. There has been some buffalo fly on the steers during Summer and Autumn, there is very slight rubbing around the eyes. There were very few at assessment - they have been treated throughout the Summer and Autumn. The treatments are listed in the treatment section as "Other Treatments". Note the steers are GRASS ELIGIBLE, never having been fed grain or treated with antibiotics. Live weight range at assessment 260-370kg as weighed. Note the sisters of these steers are in this sale also - no heifers being retained.
