Assessor Comments	An excellent line of yard weaned heifers in fresh forward store condition. Suit to take on as future breeders, these are the tops of the heifers with none being retained. They would also suit to take to a range of premium grain or grass markets. Have never been fed grain or treated with antibiotics. There has been some buffalo fly on the heifers during Summer and Autumn, and there is very slight rubbing around the eyes. There was little or no buffalo fly at assessment - they have been treated throughout the Summer and Autumn. The treatments are listed in the treatment section as "Other Treatments". Note the heifers are GRASS ELIGIBLE, never having been fed grain or treated with antibiotics. Live weight range at assessment 256-370kg as weighed. Note the brothers of these heifers are in this sale also.
