Comment on Fat Score 1 Cattle

As the photo show these steers are in good forward store condition, they are in fresh & healthy condition, Recent rain events & and winter conditions has had an effect.

Vendor Bred

No

Vendor has owned stock for 6-12 months

Stock History

The large majority of these steers were purchased ex Victorian weaner sales in January 2025.

Lifetime Traceable

Unknown

Bloodlines

90 Angus x Angus steers.

Grazing Conditions

These steers have been running on improved pasture. The pasture has a fertilizer history but due to extensive rain events and the change into the winter the pasture growth has started to slow.

Returned same

Burr/Seed in Coat

No Burr or Seed of weeds declared noxious observed in the coats at assessment

HGP Status

The owner declares that the cattle have not been treated with HGP at any period of their lives

Vendor Comments

90 Angus x Angus yearling steers that were purchased as light weight backgrounder steers ex Victorian weaner sales early January 2025, Cattle have thrived up until recent heavy rain fall events & the change into winter conditions. MH + IBR (COOPERS)

Temperament	Yards	Crush	Paddock
	Quiet: 50 head Slightly Stirry: 30 head Stirry: 10 head	Quiet: 30 head Slightly Stirry: 45 head Stirry: 15 head	Temperament not assessed in Paddock

"These steers are well-handled using side-by-side ATVs, dogs, and vehicles. Throughout the assessment, the steers were calmly walked into the yards without fuss. They moved freely throughout the yards, remaining soft and responsive to pressure while the initial draft was conducted through a round-yard drafting system. All steers passed through the weighing and head bail process with minimal fuss."

Handled With Bikes , Dogs , On foot , Vehicles

Notable Traits

Traits
4 Head Single eye scarring

Assessor Comments 90 Yearling Angus x Angus steers purchased from Victorian weaner sales in early January 2025, these steers have averaged 335kg. Weights were recorded post-yard and immediately processed with a 6% curfew applied. All steers have received their first dose of MH + IBR injection (11/6/2025) and are up to date with animal health treatments, including 5-in-1 vaccination + pour-on drench (15/1/2025). They were retreated with Genesis Ultra on 26/4/2025. These steers are in good forward store condition and, as seen in the photos, are ideal candidates for winter crop finishing—suited for heavy feeders, domestic kill, or export slaughter. Having withstood over 2 meters of rain year to date, they are resilient and will thrive given the opportunity.

Assessor **Eric Miles (Level 3 Accredited)** Phone: 0428 172 833

Delivery Period 13/06/2025 to 20/06/2025 (8 days)

Delivery Point 50 km East of Ebor 30km west of Dorrigo. Deer Vale loop road, Approximately 500m. Lat: -30.4 "S Lng152.35 " E

Ticks Cattle are not in a tick infested area.
