Assessor Comments	Buyers a wonderful line of Vendor bred Angus weaner heifers, Sired by Millamurra and Dungay Angus bulls. Out of a herd of cows based on Wattletop genetics. These future breeders present well considering the huge amount of water that has fallen on them over the last 3 months. Bred on the coast these girls will handle all climates and conditions. Ideally suited to a restocker looking for quality future breeders or could be taken through to feedlot entry weights or to a grass MSA processing job. Odd heifer noted with fly rub mark on eye and a few with old pink eye scar. Worth further inspection.
