Assessor Comments	A 2-Deck load of EU steers off the renowned Bolaro Station. Steers have been weaned since the Feb 2024 and have been run hard on native country trying to preserve feed for calving cows until recently where they were put onto oat crop for 3 weeks. Bolaro have been using Rennylea Angus genetics for 10 years with a focus on growth and IMF, targeting Rangers Valley feedlot and other repeat buyers. This is a rare opportunity that these noted doing cattle are offered onto the open market. Presenting in store condition, these steers will continue to respond well to crop. Will reach domestic/export weights if given the opportunity. Steers are EU, MSA, Greenhams Never-Ever & Tey Grasslands accredited. Please note: 132 of the 2024 weaner steers also in todays sale (1 x B-Doubles).
