Paddock

Sensible young cattle that have responded really well since weaning, and relying on daily feeding. Only a few calves that showed some anxiety in the yards and wanted to push up the race and get to the lead. Almost all leaving the crush at a walk, and all very sensible out in the paddock to get photos. Very well handled young steers, with good minds to take

| Assessor Comments      | Well bred young cattle carrying pure Te Mania Angus genetics. These Steers show good length and shape, and are renowned performers, being sought after by feedlots & purchased by in-house clients on a repeat basis. Cattle that have the scope to handle any operation and will have no trouble meeting those Feedlot or Export weight ranges. Out of Medium-Large Framed Te Mania Cows, by Te Mania sires. Cattle with plenty of stand up & frame, presenting in only 1 & 2 score condition. Rarely, (if ever) sold in this weight bracket, usually being retained until the Spring, or value added on farm and grown out to meet feedlot spec's, presenting a rare opportunity to get hold of them now and tuck them away for later. |  |        |         |             |        |                                |        |          |        |                             |        |                                                                        |        |                            |
