| Assessor Comments      | Offering 42 outstanding feeder/future breeder heifers. An ideal line to feed on grain that or grass or join to bull of choice. These heifers are extremely quiet and tops of the drop with no heifers retained and very good quality and would be excellent future breeders or would not take long to finish for the trade. They went on UniGrain pellets 12 ME & 16 protein (Grain free) on the 12/3 as light weight weaner calves and have excelled since. They have averaged 1.4kg per day since having access to pellets and are primmed in condition with plenty of room to go. Vendor takes pride in their breeding and carefully selects top shelf sires from Bowmont Angus, focusing on moderate frame, structure, high growth rates, positive fat & muscle. The majority of these heifers are breed out of Bowmont and Injermira blood Angus or black baldy cows. 10-11 months weighing 342-474kg av 393kg full @ assessment. 2 x 5in1 vaccines + booster and drenched. |
