Assessor Comments	A good to very good quality line of vendor bred EU accredited heifers. With medium to large frame they suit to background to EU export feeder weights and then crop, grain or pasture finish. They also suit to take directly onto feed for the domestic market or the EU slaughter market. For buyers peace of mind they were vet preg tested with these heifers 100% NDP on 18/06/25. The top 50% would make good quality future breeders. Please note the photos were taken approx 60% of the way through the draft due to low sunlight and they represent both EU and non EU heifer lots. The heifers were split at preg testing the next day and the videos show the split EU and non EU lots. This EU lot contains more of the red heifers. Please note these cattle are in the tick free zone and a clear to travel of all areas. Nice quality EU heifers that will continue to move ahead quickly on crop or grain. They have not had grain in their life and are antibiotic free - Grassfed eligible.
