Temperament

Yards	Crush	Paddock
Quiet: 56 head	Quiet: 54 head Slightly Stirry: 2 head	Temperament not assessed in Paddock

The heifers were good to handle in the race & crush. Two head were unsettled in the crush and exited quickly. They all settled down in the yards and remained quiet for photos/videos

Handled With Bikes , Dogs , Horses

Assessor Comments A mostly good to very good quality line of domestic weight heifers. With medium to large frame they suit to take directly onto feed for the high quality domestic market. They also suit to take and crop finish for high quality slaughter markets. For buyers peace of mind they were vet preg tested with these heifers 100% NDP on 18/06/25. Please note the photos were taken approx 60% of the way through the draft due to low sunlight and they represent both these heifers and the EU heifer lots. The heifers were split at preg testing the next day and the videos show the EU and non EU lots. This non EU lot contains more of the black heifers. Please note these cattle are in the tick free zone and a clear to travel of all areas. Nice quality heifers that will move ahead quickly on crop or grain.
