These steers were expectational to handle in all parts of yards and crush, they worked slowly through yards, crush and race and were settled in the yards with their mothers in a yard beside them. I would expect with the buyer weaning and educating these, they will be a pleasure to handle post delivery.

Handled With	Bikes , On foot
Assessor Comments	Buyers here is a top quality line of Angus/Angus steers to put away on grass and crops to grow out to heavier weights. These steers are top quality Angus steers that have been bred and handled right to continue to perform for the new buyer. These steers are really performing on their mothers milk and the native grasses they have been grazing on and would expect them to continue to perform once weaned. Top quality Angus steers not to be missed.
