Any Access To Bulls or Stags?

Temperament

Not Station Mated

These heifers have been followers on their mothers and have had bulls in with the cows until December 2024. Due to size and age pregnancy unlikely.

To vendor's best knowledge, this lot has had no access to bulls or stags.

Yards

Crush

Paddock

Quiet: 47 head

Quiet: 47 head

Temperament not assessed in
Paddock

These heifers were expectational to handle in all parts of yards and crush, they worked slowly through yards, crush and race and were settled in the yards with their mothers in a yard beside them. I would expect with the buyer weaning and educating these, they will be a pleasure to handle post delivery.

Handled With

Bikes , On foot

Traits

1 Head Blue eye spot

Assessor Comments

Buyers here is a top quality line of Angus/Angus heifers that would suit breeders looking to put away well-bred heifers to retain as future breeders. They would also suit backgrounders to put away on grass and crops to grow out to heavier weights. These heifers are top quality Angus heifers that have been bred and handled right to continue to perform for the new buyer. These heifers are really performing on their mother's milk and the native grasses they have been grazing on and would expect them to continue to perform once weaned. Top quality Angus heifers not to be missed.
