Pretty quiet nature given the amount of time off the cow and limited handling. Would expect to continue to quieten down and be fairly right to put in the paddock by delivery.

Handled With: Dogs , Horses

Notable Traits

	Traits
1 Head	Possible ringworm. Hair loss between eyes

Assessor Comments: Good and very good quality, soft, light weight heifers. Well bred and suitable to keep as future breeders or background through to feedlot weights or take through to fatten. These heifers are just the youngest of the vendors weaners and display good weight for age. These heifers were only taken off the cow the day before assessing and are currently being weaned, they were sensible and worked well through a very good set of yards. PLEASE NOTE vendor has the brothers to these in the same sale
