Temperament

Yards	Crush	Paddock
Quiet: 24 head	Quiet: 23 head Slightly Stirry: 1 head	Temperament not assessed in Paddock

These have quietened down very well since weaning commenced with all the bellowing for the cows pretty much gone. Most handled very easily at assessment through the crush & in the race however there were the odd few that were a bit keen in the race. They had never been through the race prior to assessment, and they behaved like they had been up there numerous times. Very quiet out in the bigger yards when being photographed and videoed. They do respond well to bikes and dogs in the paddock.

Handled With	Bikes , Dogs
Assessor Comments	Buyers, a small line of Red Angus heifers PCAS ELIGIBLE that come with a very good reputation and have attracted repeat buyers who have commented that these produce above average performance. These will suit restockers to grow out and background for domestic feeder markets. The hard work of breeding and weaning them has been done. Heifers are very clean in the muzzle with no nasal discharge that is sometimes prevalent in weaners at this time of year indicating good health. These heifers have definitely not suffered any setback at any stage of the life so they really should hit the ground running. They are much lighter than the steer portion but I think these would be just the younger heifers in the drop. These are bred on lighter country, history would suggest they will really hit their straps if they are exposed to crop or winter herbage on heavier improved country. Numbers are down this year due to a reduction in breeding females. There are also 72 lightweight steers in this sale.
