Steers worked well through home yards at assessment. 4 steers became unsettled in race when pressure was applied and in crush while being weighed but resettled quickly once released back into mob. A lady was working in the back yards and force without drama. Please note; In foreign environment and being handled differently these steers have the potential to become more unsettled.

Handled With: Bikes , Dogs , Vehicles

Assessor Comments: 18 good quality EU accredited Angus x Angus weaned steers presenting in healthy store condition that have an estimated

	average delivery weight of 216.1kg. A line of well bred light weight steers showing plenty of bone that have been bred on lighter country and would be suitable to background on crop. Steers have been taught to eat in the paddock. Please note; Temperament comments. Same vendor has 3 other lots in this sale.
