	Heifers were very good to handle in and around cattle yards, odd heifer did stir up in crush though as soon as returned to mob situation settled right away as can be seen in video. temperate is a strong feature in this line of heifers outstanding to work.

Assessor Comments	Buyers on offer is 72 a good to very good quality draft of vendor bred EU Jbas 7 Angus weaned heifers weighing 251-350kgs to ave 297.1kgs full at assessment. Heifers present in forward store condition and have been grazing rye grass and improved pastures and doing very well and should keep doing so given the right opportunity. Heifers are out of a very heavily classed EU Angus herd with predominately being Ben Nevis angus blood and bulls that have been selected for growth and IMF and are showing good depth and bone along with softness. Heifers would be ideal to take home finish growing out and joining to the bull of your choice or sell as a feeder heifer with that market getting stronger everyday. Heifers have been well received by all prior purchasers on joining, grass and grain.
